I help organizations improve performance.

In my working life I talk, consult, think, coach, present, record, and write about the analysis, innovation, improvement, and management of business process performance.

I work with clients on short and long-term assignments, in full-time and part-time capacities, in organizational improvement and problem-solving areas such as:

I help small and large organizations around the world to understand the potential and realize and sustain the practical benefits of process thinking and management.
